## from the photographer

---

Hi there, and thanks considering Matt Weddings to capture your special day.

Having spent many years and over 100 weddings being a part of couples' weddings in London and the Home Counties, my approach, from start to finish, is completely led by your wishes and desires.

I believe that forming a relationship with your photographer is the best way to get those beautiful, natural shots. Knowing a little bit about me, and I you, means you can feel more relaxed and at ease as I snap away on your day. That's why I always say that it is best to meet before booking anything in. That way we can make sure we are both on the same page and that you are going to be comfortable with me taking your photo and rolling the camera. The final cost includes all of the meetings we will have between now and the wedding which is defined by the package you are purchasing.

My style is aimed at capturing you when you are at your most relaxed. I don't focus too heavily on posed images with most of our time together spent having me following you around as you chat about the fact that you just got married and capturing those moments of realisation; a moment of genuine

happiness. I have worked with many couples who have said that their main fear on their wedding day is having their photo taken and I aim to remove that fear and get the most relaxed shots we can.

Included in the cost is also a full wedding breakdown which will detail the running order of the day. This will be more of a guide so that I know what is coming up and you know where I'll be, and when, throughout the wedding. On the actual day the only things that will be set in stone are the ceremony and wedding breakfast start times, the rest will be very fluid. It will also be a good document for you refer back to as you book more things in.

If you have any other questions about what I have to offer and the process of booking me as your wedding photographer and videographer please don't hesitate to get in touch.

Best,

Matt Martin

If photo albums aren't for you then have a look at what's on offer for individual prints.

Along with your photos that last a lifetime should come prints that stand the same test. I can produce beautiful prints that work on any wall or mantelpiece and are sure to draw every eye. You can buy individual prints, packages ranging from 6 prints to 100 and presentation boxes to store all of your images.

## PAPER

Prints come on either:

**Regular Art White Paper** which has a smooth, matt finish, producing highly saturated images whilst maintaining brilliant highlight and shadow detail and also produces beautiful detail in black and white imagery.

Or **Artistic Photo Rag Paper** which is slightly heavier and thicker paper, producing a smooth matt finish and reproduces skin tone detail beautifully. Perfect if you are looking for something a little extra for your prints.
